

# **ILA Annual Conference Manual Revision Committee Report**

January 17, 2006

I had expected to have the final copy of the revised conference manual completed by December, 2005. However, the date has come and gone and the manual is still being edited. I am currently completing the additions and revisions sent to me by Barbara Greever and Linnea Marshall. Once the manual is complete, I will print and bind one copy. Please advise as to who receives the final copy.

Respectfully submitted,
